TIMESTAMPS CONFLICT

- ❖ Timestamp conflict is one of the three parameters that must be verified in order to be cleared. The goal is to successfully verify the timestamp of the console. A timestamp conflict will return a "HOLD" message.

IDENTITY CONFIRMATION

- ❖ Identity confirmation is one of the three parameters that must be verified in order to be cleared. The goal is to successfully confirm the identity of the user on the console. A compromised identity will return a "HOLD" MESSAGE.

EVIDENCE SOURCE VERIFIED

- ❖ Evidence source confirmation is one of the three parameters that must be verified in order to be cleared. The goal is to successfully confirm the identity of the user on the console. A compromised identity will return a "HOLD" MESSAGE.

VERIFY

C877 // KOD RUNNERS // CONTRACT RELAY

Your mission: verify the warrant

Courier Relay 07

Signal Technician

Short

Strengths: Reads signal patterns. Limitation: needs a second source to confirm a match.

DISCOVERY

Runner verified source.

WHAT IS AT STAKE

The fate of the universe.

EVIDENCE INPUTS

☒ The timestamps conflict

☐ The identity is confirmed

☐ The evidence source is verified

Evaluate Contract

CURRENT VERDICT

HOLD

Your runner holds the contract and investigates the conflicting timestamps.

CLEAR means the record passed these checks. It does not establish Oira Quli's guilt.
