

The screenshot shows a web browser window with the URL `sbccd.instructure.com/courses/66799/assignments/1881672`. The left sidebar contains navigation links: Home, Modules, Assignments (selected), Discussions, Syllabus, IgniteAI Search, Grades, People, Pages, Files, Collaborations, Notebook, Office 365, SBVC Student Resources, Parchment Badges, Lucid (Whiteboard), and TimelyCare. The main content area features a video player with the title "TRANSMISSION READY" and a description: "The cinematic establishes the situation; the transcript and assignment contain the same required directions." Below the video player, there are two columns of instructions. The left column, titled "What to do", says: "Watch Captain Vale's briefing, open the Week 2 assignment, and complete its Resources, Study, and Requirements sections." The right column, titled "What to submit", says: "Return to this Canvas assignment and submit the tested GitHub repository link for your working C# console project." Below these instructions, a text box contains the URL `https://github.com/saines007/CS077-Fall-2026`. At the bottom of the page, there are buttons for "< Previous" and "New Attempt".

All links were tested and confirmed working.
