

APPLY ATTENTION FIRST

Malik Stalbert, Ph.D.

CHAPTER 2: THE AAA FRAMEWORK

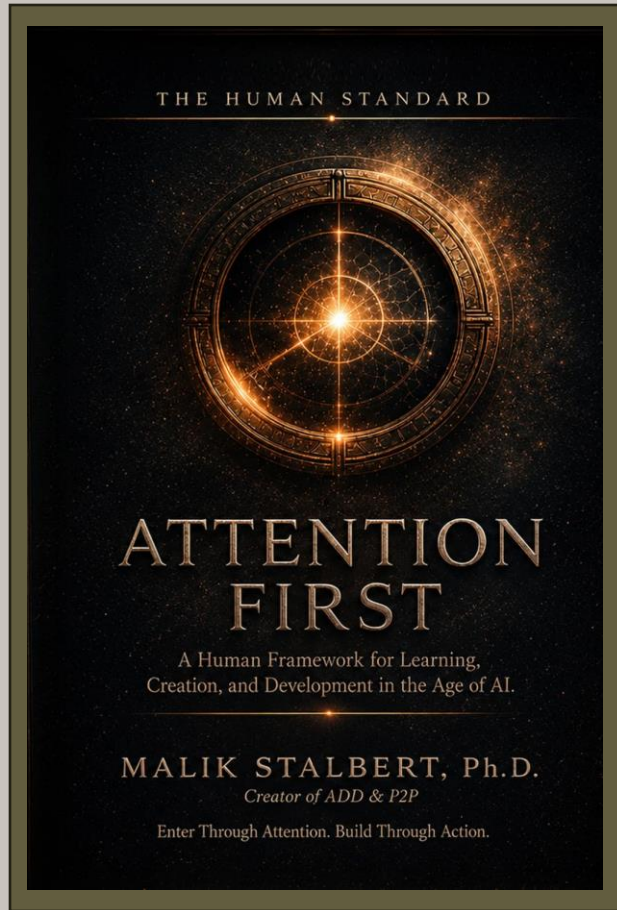

AAA in Plain Language

- ❖ Application: Begin with a practical, usable base such as a workable template or prototype.
- ❖ Action: Introduce concepts, definitions, and norms once the learner has touched the work.
- ❖ Amplification: Expand the learner into theory, creativity, and transfer once the foundation is alive.

CHAPTER 2: THE AAA FRAMEWORK

In class we read chapter two of Attention First by Professor Malik Stalbert, Ph.D.. The chapter focuses on the AAA framework of learning. We structured our in class work around this model.

❖ Application

- Creating a template to help with project momentum, confidence, and ownership.
- Story:
 - In class assignment to get a grade.
 - Make a robot

❖ Action

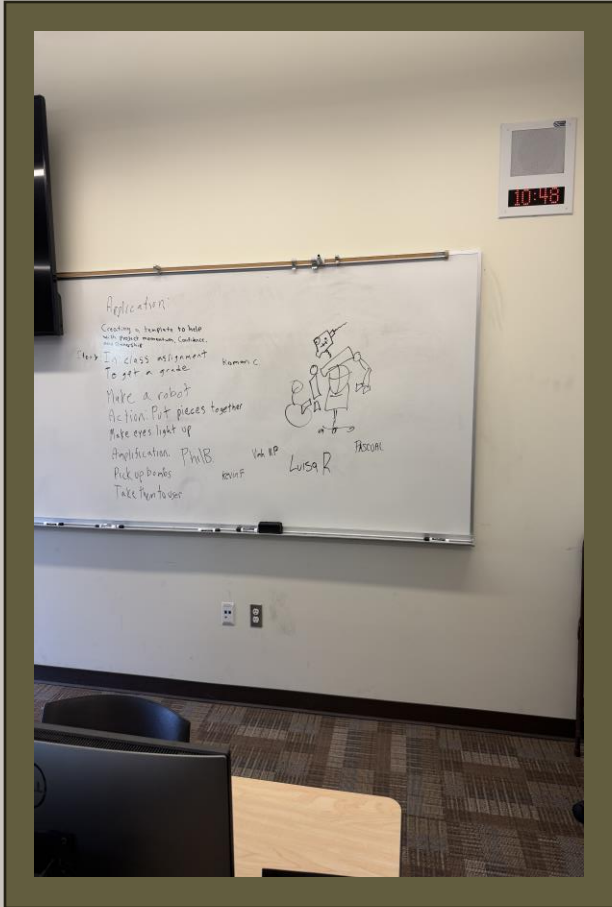

- Put pieces together
- Make eyes light up

❖ Amplification

- Pick up explosives
- Take them to user

CHAPTER 2: THE AAA FRAMEWORK

A visual representation helps reinforce the foundational base of storyboarding. In this case, we constructed a visual of our robot to expand our words written on the board into a visual representation of said words.

❖ Application

- Creating a template to help with project momentum, confidence, and ownership.
- Story:
 - In class assignment to get a grade.
 - Make a robot

❖ Action

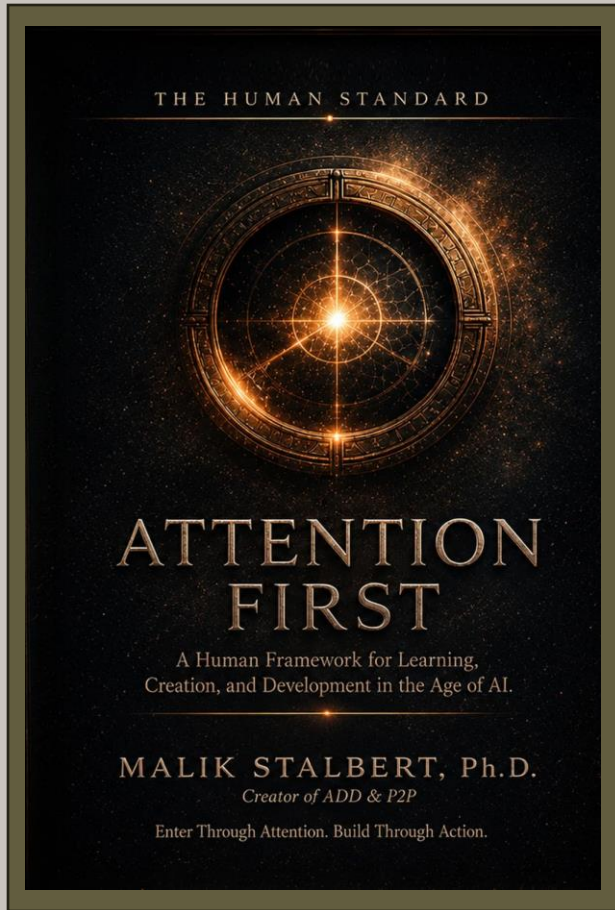

- Put pieces together
- Make eyes light up

❖ Amplification

- Pick up explosives
- Take them to user

CHAPTER 4: STORY IS NOT DECORATION

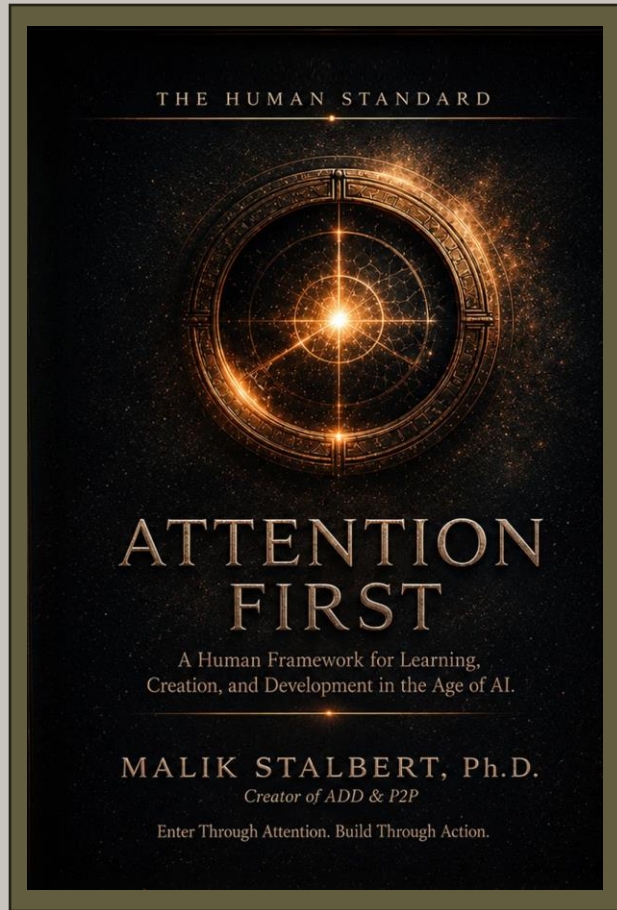

The SEEK Framework

- ❖ SEEK stands for Story-Enhanced Exploration and Knowledge. It recognizes that discovery is deepest when tied to narrative. A project is more memorable when it serves a mission or expresses an identity.

CHAPTER 4: STORY IS NOT DECORATION

In class we always practice the SEEK Framework pipeline created by Professor Malik. The point is to create a storytelling experience in a way that enhances the learning experience. Reinforcement of knowledge is presented through a visual narrative storytelling experience. The SEEK framework builds upon the concept of AAA and intertwines the experience.

❖ Application

- Creating a template to help with project momentum, confidence, and ownership.
- Story:
 - In class assignment to get a grade.
 - Make a robot

❖ Action

- Put pieces together
- Make eyes light up

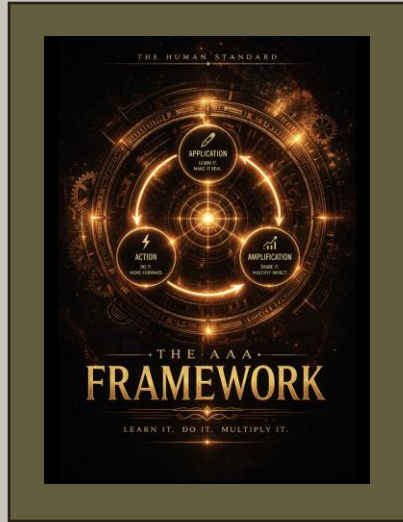

❖ Amplification

- Pick up explosives
- Take them to user
