

Training Ring Intake

Course systems, recoverable work, logic tracing, and verification

CANVAS SUBMISSION

Week 1 Mission Record: Intake and Impossible Timestamp

Submit one organized file or approved shared link containing the Runner Entry Receipt, workspace evidence, course-system handoff map, input-process-output trace, test results, and verification note. Canvas supplies the active availability, points, accepted formats, feedback, and grade.

STARRED REQUIREMENTS

Canvas lists the assignment point total. A star marks an essential requirement. Every starred item must be submitted and easy to locate; a missing starred item may limit the entire assignment to no more than 1 point under the syllabus rule.

CLEARANCE CHECKLIST

Requirements

- 01

★

Complete First Contact and save the receipt

Finish the cinematic or static route, generate the Runner Entry Receipt, save it outside the browser, and verify that it reopens.

☐
- 02

★

Build the recoverable CS077 workspace

Show CS077-Fall-2026 with 00-Course-Information, 01-Week-01-Training-Ring/source, evidence, submission, 02-Week-02-Systems-Online, and recovery. An equivalent accessible naming scheme is acceptable when approved.

☐
- 03

Map the course-system handoff

Show how work moves from Canvas to the CS077 Nexus, into the local workspace, and back to the official Canvas submission. Add any media, support, or alternate route you used.

☐
- 04

★

Trace the impossible timestamp

Name the inputs, process, output, and test. Include one normal case and one conflicting case in plain language or the starter format supplied in class.

☐
- 05

★

Record expected and observed results

For each test, state what should happen, what actually happened, and what the result says about the original claim.

☐
- 06

Explain the verification decision

Write a short note identifying the evidence you trusted, the claim you changed or rejected, and any uncertainty that remains. If AI assisted, include the requested work record without private information.

☐

Verify the Canvas submission

Submit through the Week 1 assignment named in Canvas, reopen it, and confirm that every page, image, file, and link is readable.

Official course record: Canvas supplies the due date, accepted formats, submission, feedback, and grade.
